

TAKE ADVANTAGE OF THE CASHBACK OFFER

If you purchase one of the eligible Samsung SSD models, you will be able to claim up to **£50 cashback*** by following these simple steps.

- 1** Purchase a qualifying Samsung SSD from a participating retailer between 30th March and 3rd May 2014.
- 2** Retain the receipt or invoice as your proof of purchase, waiting 15 days before making a claim. Claims may only be made between 15 and 45 days of purchase.
- 3** Redeem your cashback by going online to **www.samsung.com/uk/ssdevocashback** and completing the redemption form.
- 4** Valid cashback claims will be fulfilled within 28 days of submission.

* Cashback amount varies by model purchased.

250GB Laptop Upgrade kit***

***MZ-7TE250LW available from PC World only.

TERMS AND CONDITIONS

Participants who purchase a new (i.e. not second hand) Samsung SSD from the list of models set out in the table below (a "Promotion Product") from PC World, Currys, Amazon, Scan.com, Overclockers.co.uk, Dabs.com or Ebayer.com in the UK or ROI (each a "Participating Retailer") between 30 March 2014 and 3 May 2014 will be entitled to claim a cashback reward (paid by way of bank transfer) for the relevant cashback amount (the amount varies by SSD model, as set out in the table below).

Promotion Products purchased in Pounds Sterling shall receive a cash credit in Pounds Sterling, Promotion Products purchased in Euros shall receive a cash credit in Euros.

Only purchases from Participating Retailers are eligible for this Promotion. For the avoidance of doubt, purchases from Amazon Marketplace are not included in this promotion.

Participants must wait 15 days after purchase before submitting a claim. Claims must be made within 45 days from purchase. Therefore claims may only be submitted between 15 and 45 days after the date of purchase of a Promotion Product, and in any event no later than 17 June 2014.

For full terms and conditions and to claim a Cashback Reward visit: www.samsung.com/uk/ssdevocashback

CASHBACK*
on a Samsung SSD 840 EVO**

Currys PC World

Valid from 30th March - 3rd May 2014.

*Cashback amount varies depending on model purchased
**Terms & Conditions apply. Participating retailers only

REVOLUTIONISE YOUR PC

The evolution of SSD, and the revolution of your laptop, has arrived with the Samsung SSD 840 EVO.

An SSD is the easiest and most economical way to breathe new life into your laptop – enhanced boot-up speed, application loading and multi-tasking performance.

Now, your laptop will be waiting for you – not the other way round!

FASTER PERFORMANCE

Boot your laptop in a matter of seconds. Open programs at nearly twice the speed of a hard drive. Have your files loaded in an instant.

As it's up to eight times faster than a hard drive, the 840 EVO SSD has speed by the shed load. The lightning fast read rate for light workloads is the best in the industry. You gain the same storage technology used in smartphones and tablets.

- Three times faster than a hard drive during multiple operations
- TurboWrite technology ensures you save your work faster
- Boot your laptop in a third of the time it currently takes
- Copy files nearly 5.5 times faster than a hard drive
- Nearly 2.5 times as fast as hard drives for game map data loading
- Lightning-fast reactions for loading and saving

UNMATCHED RELIABILITY

With a toughened design, the 840 EVO SSD is the safest place for your files, photos, video and music. It's all set for the rigours of everyday use. Shocks and vibrations can harm traditional hard drives, but an SSD is far more resilient.

The Dynamic Thermal Guard Algorithm in our firmware makes the drive ready to handle extreme temperatures, whether hot or cold.

- Proven quality and trusted reliability
- Backed with 3-year warranty
- Thermal Guard resists high temperatures
- Impressive life expectancy
- Operates between around 0°C and 70°C
- Lightweight design is favourable for travelling workers

ENERGY EFFICIENT

Laptop running out of power? Your hard drive consumes a lot of power. The 840 EVO SSD is designed to be light on energy usage. With no moving parts, your computer runs for much longer.

- Stay connected longer and power up faster with Device Sleep (DEVSLP)
- Provides a cooler computing environment, ensuring longevity of all components
- SSDs typically operate between 2.94 and 4.2W at peak load
- More working time for those on the move

EASY TO INSTALL

If you can handle a screwdriver, the 840 EVO SSD is for you. You face no hassle in replacing your existing hard drive. Our kit makes everything easy, even if you don't have any technical prowess.

- All necessary cables and connectors included
- Our automatic installation guide assists you every step of the way
- Transfer your entire operating system and data in around half an hour
- Samsung Magician software enhances system performance in tandem with computer memory
- Clone other drives in a matter of minutes with migration software

The end result is your laptop is ready to work when you are, with greater performance and reliability, and for longer.

Revolutionise your computer with the Samsung 840 EVO SSD and your daily computing experience will never be the same again.
